

**Flinders**  
UNIVERSITY

NATIONAL CENTRE FOR  
GROUNDWATER RESEARCH AND TRAINING  
*sustaining a vital water resource*

# Research Associate

**Ref 12319** Flinders University is a respected international leader in hydrologic education and research. It has partnered with the Goyder Institute for Water Research, State government agencies and other universities on a climate change project. A range of surface and subsurface modelling tools will be developed to assess climate change impacts on catchment flow processes in South Australia.

A position is available for a groundwater modeller to assist the team. The successful applicant will conduct groundwater modelling research, specifically developing a groundwater model of part of the Mount Lofty Ranges and use it to test how downscaled climate change projections can be used in practice.

- **National Centre for Groundwater Research and Training, School of the Environment**
- **Available until 30 June 2014 on a full-time or part-time basis**
- **Salary (Level A): \$61,504 to \$74,907 pa**
- **Plus 17% employer superannuation**
- **Applications close: 11.00am Monday, 19 November 2012**
