

Dear colleagues,

We would like to inform you of the mini-symposium entitled:

Effective Stress Principle in Multi-Phase Systems

at

[The 5th International Conference on Porous media](#)
(May 21-24, 2013 Prague, Czech Republic)

Last call for abstracts

Please find a summary on objectives, scope and topics which will be discussed at the mini-symposium at [this link](#).

We would really appreciate it, if you could inform your colleagues, and team workers to whom this event may be of interest.

Important remarks:

A one page abstract is required to be uploaded on the conference web site by **February 15, 2013**, according to the template provided [at this link](#).

Participants need to specify this mini-symposium when they want to submit their abstract.

We have very limited space for oral presentation. Only a few presentation slots are still available which are mostly for poster presentation. **Please kindly be informed that** final decision on the type of presentations (oral or poster) will be made after the review process.

Important dates:

- **Abstract submission deadline:** [February 15, 2013 \(Deadline is approaching\)](#)
- Notification of acceptance: Shortly after the new submission deadline
- Early registration/payment deadline: March 20, 2013

We believe that this get-together will help advancement of science of porous media on this very important subject and we look forward to meeting you in Prague.

With very kind regards,
on behalf of mini-symposium co-conveners,

Bruno Chareyre (INPG, France),
Ehsan Nikooee (Shiraz University, Iran)
